## **IJR, Inc. Announces New ‘Greener’ Hours of Operation**

IJR, Inc. is *Goin’ Greener* and doing their part to conserve our planet’s resources by compressing their hours of operation from a five-day workweek to four. Beginning June 2, 2008, IJR’s new hours are Monday through Thursday, 7 am to 5 pm, closed Friday.

This adjustment will reduce IJR’s environmental footprint through decreasing the amount of weekly miles driven by their employees, resulting in a decrease of harmful vehicle emissions made to the air. This measure will provide a fuel savings of 20% by reduced employee traffic.

Additionally, IJR’s electricity demand becomes less by adjusting weekly energy needs from five days to four.

“We will continue to insure our products arrive quickly and on time through our newly developed ‘Greener Approach’ to business and appreciate our customers for working with us and helping us achieve our goal for a brighter future” said Bob Allen, president of IJR.

IJR, Inc., in business since 1978 has thousands of clients worldwide and is a leader in remanufacturing quality imaging supplies.
