IJR, Inc. Announces New Inkjet Line-up

IJR, Inc. today announced the addition of new cartridges into its existing product lines. Just released is Epson's remanufactured line-up of 16 new cartridges, followed by the compatible line which includes Kodak's Easyshare 5100/5300/5500 black and color cartridges.

"Many of our customers asked for these particular cartridges and we are pleased to announce the addition of this new line-up to our extensive family of imaging products. In the past, our industry has relied on compatible cartridges produced from outside of the US. We're filling this void by providing a direct source for our customers to access just released compatibles and remanufactured inkjets," said Terry Bankert, IJR, Inc. sales manager. All cartridges provide superior, razor-sharp inkjet print capabilities.

IJR, Inc. cartridges deliver high quality, low cost solutions to it's customers inkjet needs and has been a global leader in the remanufacturing of quality imaging supplies for more than 30 years.
