IJR, Inc. Releases Performance Plus+ Remanufactured Color Laser Cartridges

PHOENIX, Arizona – IJR, Inc. announced the release of its HP compatible Performance Plus+ color laser cartridge for use in HP's 1500/2500/2550/2820/2840 and 3500/3550/3700 series printers.

“The industry’s need for a quality remanufactured color laser cartridge led our R&D team to include these cartridges within our existing family of Performance Plus+ products. Our new line is put through extensive testing procedures under various conditions to insure the highest level of product performance and ultimate customer satisfaction,” said Dave Rice, general manager of IJR, Inc. “Our goal is to maintain the integrity of established color matching standards”.

Performance Plus+ cartridges are remanufactured utilizing superior high-quality true chemical toner which features spherical particles. This element is critical to enabling the production of a consistently sharp image. The cartridges are available in cyan, magenta, yellow and black.
